I understand that I am entitled to attend three rowing events without being a full member.

Thereafter, if I wish to continue, I must apply for full membership using the application form to be found on the Quay Sailing Club website.

I agree to abide by the rules & by-laws of Quay Sailing Club.

I understand that QSC management committee takes no responsibility for any loss or damage to persons or property

I have read the attached Conditions of Participation.

Signed Date

Parent / Guardian if applicant is a junior.

Conditions of Participation

to be associated with

Parental Consent and Membership Application

1. Please be aware that there are risks attached to water activities. QSC will take actions to reduce the risks as far as it is reasonable to do so.
2. No person will be able to take part in water activities organised by QSC unless a Parent Consent Form (in the case of a junior) and an application for temporary membership has been completed.
3. In the case of rowing activity, rowers will additionally complete a Medical Questionnaire.
4. For Juniors under 13, a parent or guardian must remain on-site with them and will be responsible for their behaviour and keep them away from water edges when not rowing .
5. It is the responsibility of any persons (or for juniors, their parents/guardians) who have need of medication to have such medication with them when at QSC.
6. All Juniors (under 18) will wear lifejackets when on the water. QSC strongly recommends that people taking part in water activities should wear a personal flotation device.
7. The quayside, pontoon and slipway can be hazardous places and QSC strongly recommends extreme care when in these areas. The river has a thick mud bottom so no attempt to walk from the quayside must be made.
8. If a person wishes to continue water activities at QSC after the first 3 sessions, he or she will be expected to apply for full membership of Quay Sailing Club.
9. Anyone undertaking water activities should be aware of the issues of cold and excessive heat.
10. In order to reduce the risk of hypothermia, heat-stroke and sunburn, appropriate clothing should be worn. This could be several layers of thin clothing during cold weather with wind & rain proof outer layers as necessary. During hot weather and sun, the ability to cover up without over heating will be necessary.
11. It is recommended that footwear is lightweight, non-slip and secure. Wellington boots should be avoided.
12. All water activity participants should familiarise themselves with Health and Safety Guidelines of the governing body that oversee their particular activity, e.g for boating, RYA; for rowing, CRA; for canoing, BCU
